Cross Stitch Map

An idea by Em Royston

made by Suck UK

Em Royston studied Design before joining the Suck UK team back in 2010 where she started off on the sales and distribution side. After 5 years working in a number of roles, she moved back towards her design background, designing a number of products and displays as Brand Manager. Em designed and developed the Cross Stitch Map for Suck UK in 2015, shortly before taking the leap to move to Hong Kong and start her own company. Her brand, Chasing Threads, now follows the original idea of the Cross Stitch Map, combining a love of travel with a life-long obsession with crafting and customisation.
