health, safety and environmental protection requirements of European Directives.

Jude Biddulph & Sam Hurt - Managing Directors
17 July 2024

Product conformity is of paramount importance. Safety and responsibility for environment begins at
the design stage of each product, the specification of materials and components, right through to the
production method. We strive to supply you with a safe product and one that conforms to all
regulations.

CE Mark Meets EU health, safety & environmental protection directive requirements.

WEEE Waste Electrical & Electronic Equipment Directive 2012/19/EU reduces the amount of electrical and electronic equipment being produced and encourages reuse and recycling. For the product's after life, please take it to designated collection points, where they will be accepted free of charge. Alternatively, in some countries return items to your local retailer upon the purchase of an equivalent new product.

RoHS Restriction of Hazardous Substances Directive 2011/65/EU (as amended by 2015/863).

Minimises the environmental impact of waste electrical and electronic equipment (WEEE) by reducing the quantities of four heavy metals and two brominated flame retardants. Specifies allowed limits of lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyls (PBB) and polybrominated diphenyl ethers (PBDE).

EMC (Electromagnetic Compatibility Directive) 2014/30/EU The EMC directive limits electromagnetic emissions from equipment in order to ensure that, when used as intended, such equipment does not disturb radio and telecommunication, as well as other equipment. The directive also governs the immunity of such equipment to interference and seeks to ensure that this equipment is not disturbed by radio emissions, when used as intended.

Triman Label Indicates that used packaging should be sorted. Additional icons show how to recycle.

Recyclable Packaging Made from materials that can easily be recycled if disposed of correctly.
