

Fetch My Keys

Find your keys, whistle and they beep.

- Dog shaped key ring.
- Whistle to locate your keys.
- Sound activated beeper.
- Red flashing light in nose.

You know the way dogs get you your paper on a morning? Have you ever tried to train your spaniel to fetch your lost keys in the same way? Us neither - but we imagine it's difficult. So we've created Fetch My Keys, a dog shaped keyring that beeps when you whistle.

Fetch My Keys

An idea by Suck UK Design Team
made by Suck UK

Mark E Smith once said "if it's me and your granny on bongos, it's the Fall". It's a lot like that here - if it's Sam & Jude and a revolving team of talented creatives, it's Suck UK. From the inception of the company in 1999 Sam & Jude have been the constant driving creative force, but none of that would be possible without a great team of designers and developers who turn these ideas into something great. Once a Sucker always a Sucker.
