

Animated Moon & Earth Magnets

Revolving globe & phases of the moon.

- Lenticular Animated Fridge Magnets.
- Earth spins & the Moon waxes and wanes.
 - Hold notes, photos, and kids artwork.
- Bring the wonders of the universe to life.
- Journey through the cosmos on your fridge.

Experience the magic of motion. Step into a world where the moon waxes and wanes, and the Earth spins in captivating motion right on your refrigerator. The perfect fusion of science and art that will mesmerize you every time you open your fridge. Watch as the moon transitions through its lunar phases, from full to crescent, and marvel at the Earth as it rotates, revealing different continents and oceans. Our special Lenticular printing technique creates a stunning animated 3D effect. An ideal gift for space enthusiasts and science lovers.

Animated Moon & Earth Magnets

An idea by Suck UK Design Team
made by Suck UK

Mark E Smith once said "if it's me and your granny on bongos, it's the Fall". It's a lot like that here - if it's Sam & Jude and a revolving team of talented creatives, it's Suck UK. From the inception of the company in 1999 Sam & Jude have been the constant driving creative force, but none of that would be possible without a great team of designers and developers who turn these ideas into something great. Once a Sucker always a Sucker.
