

Cordless Smiley Lightbulb

Rechargeable nightlight with a smile.

- USB Rechargeable battery.
- Lights up without plugging in.
- Yellow glass with Smiley face.
- Night light, table decoration.
- Glass & Metal construction.
- 6h battery life on a 1.5h charge.

Seemingly magic bulb, lights up without plugging in or attaching to a lamp. Looks and feels identical to the iconic filament light bulb with a Smiley face. Power-cord free, rechargeable and portable. Our homage to the timeless, beautiful and humble light bulb. Powered by an internal battery with a 6 hour life on a 1.5 hour charge. If Edison could see this, he would be turning in his grave.
 A small note on safety - this light bulb cannot (even accidentally) be screwed into a mains light fitting, we have designed it specifically to be slightly too large to fit.

Designed and made by Suck UK

70 x 120 x 70mm | 66g

Cordless Smiley Lightbulb

An idea by Suck UK Design Team
made by Suck UK

Mark E Smith once said "if it's me and your granny on bongos, it's the Fall". It's a lot like that here - if it's Sam & Jude and a revolving team of talented creatives, it's Suck UK. From the inception of the company in 1999 Sam & Jude have been the constant driving creative force, but none of that would be possible without a great team of designers and developers who turn these ideas into something great. Once a Sucker always a Sucker.
