

Cordless Calavera Lightbulb

Day of the Dead rechargeable light.

- USB Rechargeable battery.
- An unteathered illuminated lightbulb.
- Skull shaped colour light filament.
- Dead cool decorative night-light.
- No witchcraft involved / Just LEDs.
- Glass & Metal / Quality constructionl.
- 6h battery life on a 1.5h charge.
- USB Cable included.

This seemingly magic bulb lights up without plugging it in! Colourful-shaped skull filament in glass. Our lightbulbs are cordless, rechargeable and beautiful. Recreates the classic look of old-school filament lamps with a Day-of-the-Dead skull floating inside. Looks and feels identical to the iconic filament bulb, but does not need to be attached to a lamp or require plugging in. Power-cord free, rechargeable and portable. Timeless and beautiful with a gothic twist. Powered by an internal battery with a 6 hour life on a 1.5 hour charge. If Edison could see this, he would be turning in his grave.

 A small note on safety - this light bulb cannot (even accidentally) be screwed into a mains light fitting, we have designed it specifically to be slightly too large to fit.

Cordless Calavera Lightbulb

An idea by Suck UK Design Team
made by Suck UK

Mark E Smith once said "if it's me and your granny on bongos, it's the Fall". It's a lot like that here - if it's Sam & Jude and a revolving team of talented creatives, it's Suck UK. From the inception of the company in 1999 Sam & Jude have been the constant driving creative force, but none of that would be possible without a great team of designers and developers who turn these ideas into something great. Once a Sucker always a Sucker.
