

wooden bulb

Pendant / Floor lamp

It's a bulb .. but not as you know it. This clever lamp is shaped like a giant light bulb and houses a ... light bulb. Designed by Suck UK friend Barend Hemmes, it's made from laser cut wood, which leaves a crisp burned edge and creates a satisfying, waffle-like glow. Either hung from the ceiling or laid on its side, the Wooden Bulb will add a little tongue-in-cheek humour - as well as light - to any room
