

Sydney Opera House PanoS1

3D ART Australia.

- Series 1 'iconic world landmarks'
- Made from plant based bio-plastic.
 - 3D Printed by robots (really!)
- A collaboration with Made Happy.

Panorama is our collection of 3D artworks, based on the real life wonders of the earth's surface. Designed to hang as unique wall art, or as decorative desk adornment, the first series in the Panorama collection focuses on 'World's most iconic landmarks'.

 Sparked an idea? We're very happy to discuss bespoke locations, landmarks, landscapes, colourways and scales. We can produce in very sensible volume and with unbelievably good turnaround times, to almost any specification.

 Produced ethically and sustainably in the UK. Our cityscapes are manufactured locally by an army of robots and 3D printers, using bio-plastics derived from plant sugars, which make these fully recyclable.
