

Ring Pull Bottle Opener

Pop-art bar tool.

- Die cast metal.
 - Polished.
 - But is it art?
- Plastic free product and packaging.

Shiny pocket sized bottle opener that looks like a ring-pull from a can of pop. Its no coincidence that discarded ring pulls have featured in paintings from Andy Warhol to Roy Lichtenstein. These tiny artifacts of precision engineering are both functional and beautiful - We have supersized the humble ring-pull in pop-art fashion, and created the worlds first Pop-Art bottle opener.

Designed and made by Suck UK

Ring Pull Bottle Opener

An idea by Suck UK Design Team
made by Suck UK

Mark E Smith once said "if it's me and your granny on bongos, it's the Fall". It's a lot like that here - if it's Sam & Jude and a revolving team of talented creatives, it's Suck UK. From the inception of the company in 1999 Sam & Jude have been the constant driving creative force, but none of that would be possible without a great team of designers and developers who turn these ideas into something great. Once a Sucker always a Sucker.
