SQUASHED BOOK MARK

Macabre - Squash Mark in your book.

- Yellow silicone rubber squashed bookmark.
- A grim alternative to boring book marks.
- Keep Mark nearby and never lose your page again.

Poor Mark! He's met a sticky end - squashed flat within the pages of your book. He may look as if he's scrabbling to get out, but he's really quite happy keeping your place. Forget pressed flowers and old bus tickets - Mark is the future. After all, he's dead - what else has he got to do?!

Book Mark

An idea by Suck UK Design Team
made by Suck UK

Mark E Smith once said "if it's me and your granny on bongos, it's the Fall". It's a lot like that here - if it's Sam & Jude and a revolving team of talented creatives, it's Suck UK. From the inception of the company in 1999 Sam & Jude have been the constant driving creative force, but none of that would be possible without a great team of designers and developers who turn these ideas into something great. Once a Sucker always a Sucker.
