

Colour Change Umbrella

Changes to bright colours when wet.

- Umbrella printed with colour changing ink.
- White pattern turns multi-coloured when wet.
- High-quality mechanisms and soft grip handle.
- Standard size - 100cm diameter when open.
- Carbon fibre struts to defy the windiest weather.
- Lightweight, portable, super-tough and durable.
- Telescopic, with matching slip-on carry case.

Brighten Up Bad Weather. Simple white raindrop pattern transforms into a rainbow burst of colour when the umbrella gets wet. Printed with special ink, that comes to life when in contact with water. Confuse a generation of children into thinking rainbows are leaking colour from the sky.

Designed and made by Suck UK

250 x 50 x 50mm | 0.3Kg

Colour Change Umbrella

An idea by Suck UK Design Team
made by Suck UK

Mark E Smith once said "if it's me and your granny on bongos, it's the Fall". It's a lot like that here - if it's Sam & Jude and a revolving team of talented creatives, it's Suck UK. From the inception of the company in 1999 Sam & Jude have been the constant driving creative force, but none of that would be possible without a great team of designers and developers who turn these ideas into something great. Once a Sucker always a Sucker.
