

Salt & Pepper 'Bots

SALT AND PEPPER BOTS

Walking, clockwork robot condiments.

- Plastic salt and pepper shakers in the style of wind up robots
- Wind them up with the attached key and watch them waddle
 - Measures 70mm(W) x 95mm(H) x 30mm(D)

Wind them up and watch them go! Scuttling along with only one aim in mind, to deliver their precious cargo of salt and pepper to the other side of the table. Domesticated robot helpers, the future has arrived. No more reaching across your plate for the seasoning - Now that's good table manners.
