GOLD PLATED KEY BOTTLE OPENER

Looks like a regular key - Opens bottles.

- Always discreet.
- Always in your pocket.
- Always ready when you are.
- Simple and indestructable.

The best bottle opener is the one that's always in your pocket. Impress your mates while drinking al fresco: Open bottles with your keys... Or what at first glance looks like a standard door key, but on close inspection the action end is actually a bottle opener. If you always forget to bring a bottle opener to the picnic, now you'll never leave home without, unless of course you forget your keys. A modern design classic in its own lifetime! Compact, subtle and incredibly useful.

Key Bottle Opener

An idea by Suck UK Design Team
made by Suck UK

Mark E Smith once said "if it's me and your granny on bongos, it's the Fall". It's a lot like that here - if it's Sam & Jude and a revolving team of talented creatives, it's Suck UK. From the inception of the company in 1999 Sam & Jude have been the constant driving creative force, but none of that would be possible without a great team of designers and developers who turn these ideas into something great. Once a Sucker always a Sucker.
