

Cat Scratch Turntable

Cardboard DJ deck scratching cat toy.

- Spinnable scratchable turntable.
- Moveable tone arm for tempting fun.
- Stop your cats scratching your furniture.
- Keeps claws trim, maintained, strong and healthy.

Cool for cats! You love your kitty, but you hate him scratching the furniture, give your pet something good to get his claws into... Like a cardboard turntable with moving tone arm and a top which spins as your cat paws at it! Now watch your cat DJ instead of tearing up the furniture.

The decks come flat packed and fold together into a simple structure with moving tone arm and a turntable which spins as your cat paws at it – meaning you can sit and giggle “LOOK THE CAT IS DOING HUMAN THINGS” rather than watch in horror as he shreds your favourite couch into tiny pieces.

Cats scratch furniture to mark their territory, exercise their muscles and for sheer pleasure. All similar reasons youths get into DJing, and if we are to cross over both those cultures we'd rather get cats mixing music than teenage boys bringing dead birds back to your doorstep.

Cat Scratch Turntable

An idea by Suck UK Design Team
made by Suck UK

Mark E Smith once said "if it's me and your granny on bongos, it's the Fall". It's a lot like that here - if it's Sam & Jude and a revolving team of talented creatives, it's Suck UK. From the inception of the company in 1999 Sam & Jude have been the constant driving creative force, but none of that would be possible without a great team of designers and developers who turn these ideas into something great. Once a Sucker always a Sucker.
