

Clockwork Sharpener

Wind-up key shaped pencil sharpener.

A pencil sharpener with the traditional look and feel of a wind-up key for clockwork mechanisms. The oversize handle makes sharpening your favourite pencils a breeze. The whole thing has a deliberate work-shop-tool aesthetic.

Clockwork Sharpener

An idea by Suck UK Design Team
made by Suck UK

Mark E Smith once said "if it's me and your granny on bongos, it's the Fall". It's a lot like that here - if it's Sam & Jude and a revolving team of talented creatives, it's Suck UK. From the inception of the company in 1999 Sam & Jude have been the constant driving creative force, but none of that would be possible without a great team of designers and developers who turn these ideas into something great. Once a Sucker always a Sucker.
