Pencil-Pot... Desk-Tidy... Vinyl Toy

Vinyl toys are traditionally cool, but functionless characters, collected and displayed but never used – this seems like a waste of creativity to us, so we've taken our favourite animals and given them a vibrant paint job and re-sized them to be perfect for swallowing your pencils, toothpicks, toothbrush, paper clips and even wires! Finally an excuse to keep toys on your desk. The frog desk tidy has a magnetic mouth so you can throw your paper clips at him and they'll be sure to stay! Design by Suck UK & Union Inc..
