

Touch Screen Stylus (Pen)

Perfect stylus for iPad & iPhone.

Designed like a simple pen for accurate operation. The chunky shape makes it easy to hold. Most people find it way more accurate to draw and write with a pen than their finger, it's just what we are all used to. Made for iPad, iPhone, smartphones and other touchscreen devices.

Touch Screen Stylus (Pen)

An idea by Suck UK Design Team
made by Suck UK

Mark E Smith once said "if it's me and your granny on bongos, it's the Fall". It's a lot like that here - if it's Sam & Jude and a revolving team of talented creatives, it's Suck UK. From the inception of the company in 1999 Sam & Jude have been the constant driving creative force, but none of that would be possible without a great team of designers and developers who turn these ideas into something great. Once a Sucker always a Sucker.
