

Drumstick Pens

2 pens that are also fun drumsticks.

- 2 Wooden pens shaped like drumsticks.
- Available in either blue or black ink.
- Wood from sustainable sources.

A pair of drumsticks handily combined with ballpoint pens, for persistent amateur tappers and professional drummers. Know someone who thinks they're the next Phil Collins? Or just a fidgety pen tapper? This is the perfect gift, your drumming pal can practice keeping a beat and in one swift rotation look busy at work! Quieter than a full size drum kit, cheaper, and kinder on the neighbours.
