

Minim Playing Cards

White & simple deck of regulation cards.

Regulation playing cards that considers how much “design” you can take away while still maintaining a playable deck. Simple geometric symbols are reductive versions of hearts, clubs, diamonds and spades. While it is necessary to mark the backs of regulation cards, we’ve done so with minimal diagonal lines instead of the typical ornamental graphics. Made for sustainably harvested stock and vegetable-based inks. A plain and simple gift for card playing minimalists.
