

Butterfly Umbrella

Transform rainy days into something beautiful.

- Beautiful butterfly print umbrella
- Folds up to look like a caterpillar
- Standard size - 100cm diameter when open
- High-quality mechanisms and wooden handle

Compact collapsible umbrella that folds from a curious caterpillar, and opens into a butterfly unfolding its colourful wings when the rain starts to pour. A wet, grey day can really bring you down, brighten the mood and bring a smile to those who pass you on the gloomy streets.

Wind proof, tough and designed to fold down for convenience, the Butterfly Umbrella is practical as well as pretty. A Great gift for entomologists (Butterfly collectors).
