

City Erasers

Mini architecture in rubber.

Iconic buildings reproduced as rubber erasers. Each set contains four unique buildings inspired by famous city skylines. Keep them to hand for correcting those monumental mistakes, or just use them to turn your desktop into an impressive urban landscape. Mistakes are not set in stone. A playful gift for urban planners, engineers and architects (and big kids).

City Erasers

An idea by Suck UK Design Team
made by Suck UK

Mark E Smith once said "if it's me and your granny on bongos, it's the Fall". It's a lot like that here - if it's Sam & Jude and a revolving team of talented creatives, it's Suck UK. From the inception of the company in 1999 Sam & Jude have been the constant driving creative force, but none of that would be possible without a great team of designers and developers who turn these ideas into something great. Once a Sucker always a Sucker.
