

Plant Pot Bookends

A plant pot split in half.

- Waterproof bookends in the style of a traditional plant pot
 - Plastic pots supported by hidden metal L-plates
 - Slide pots from base for mess free watering
 - Plant not included

Create unique living bookends that hold your favourite novels between potted foliage - just add plants. Brighten up your bookshelf with this clever two-part planter. The waterproof bookends appear to be one traditional style plant-pot, cut in half. Two metal L-plates discreetly support the books and hold the planters in place, so they won't fall over or spill any soil. When your plants get thirsty, simply slide the pot up from the metal base for mess-free watering. The best gift for book-smart botanists. A growing design worth reading about, by Andy Mason.
