After graduating from Central Saint Martins with a degree in Product Design, Yee-Ling boarded a plane to Hong Kong where she spent 7 happy years designing products for Milk Design and Innermost. Her weekly visits to manufacturers in China filled her head with a deep understanding of the development process - seeing amazing ideas batch made by hand, mass produced by machines and how these specialists solved issues on an industrial scale! Yee-Ling has been sharing her fun ideas with the Suck UK design team since 2011 where she is currently Senior Production & Design Manager.
