

Toothbrush Timer

A toothbrush holder with a twist.

- A toothbrush holder with inbuilt 2 minute timer
- The cup separates from the base for easy cleaning
- Twist the bottom section to start a 2 minute countdown

Make toothbrushing-time fun with this helpful little character. Simply twist the bottom section of the cup to activate a two-minute timer, then brush away until the ringer sounds. Better yet, the cup separates from the base for easy cleaning. A happy, handy addition to any morning or bedtime routine. Design by Yee-Ling Lau for SUCK UK

Toothbrush Timer

An idea by Yee-Ling Lau
made by Suck UK

After graduating from Central Saint Martins with a degree in Product Design, Yee-Ling boarded a plane to Hong Kong where she spent 7 happy years designing products for Milk Design and Innermost. Her weekly visits to manufacturers in China filled her head with a deep understanding of the development process - seeing amazing ideas batch made by hand, mass produced by machines and how these specialists solved issues on an industrial scale! Yee-Ling has been sharing her fun ideas with the Suck UK design team since 2011 where she is currently Senior Production & Design Manager.
