

Skull Brush

Finest quality beech wood brush.

- The bristles have the appearance of teeth protruding from the wooden skull.
- Useful as a nail brush, shoe brush, dish brush, general cleaning brush...
- Made of tough tight grain beech wood and hard wearing natural bristles.

A beautifully designed, solid beech wood brush with natural bristles. This cool cleaning tool is comfortable to hold and has a multitude of uses. Keep by the sink as a nail brush, use it to polish your shoes or put it to work on pots and pans. Really useful, really tactile and really nice to look at.

Skull Brush

An idea by Ohad Chiya
made by Suck UK

Ohad is the co-owner and founder of PAKZU DESIGN, a Tel-Aviv based studio. He uses his healthy curiosity to learn and work in multidisciplinary manufacturing methods ranging from ceramics and woodworking to plastic injection and 3D printing. From ideas and prototyping to planning for production, product development is Ohad's bread and butter for both his own design work and also as a service for others. His main satisfaction however, comes from popping a smile on the faces of those who see his work... and playing with his dog!
