

Solar System Fridge Magnets

The universe on your refridgerator.

- Put planets on the empty space of your fridge.
 - Educational and aesthetically pleasing!
 - Earth, Mars and all your other favourites...

Make space on your fridge door for these miniature planets. A set of 8 magnets including Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, and Neptune. Rearrange the solar system in the empty space on the front of your fridge.

Designed and made by Suck UK

Solar System Fridge Magnets

An idea by Suck UK Design Team
made by Suck UK

Mark E Smith once said "if it's me and your granny on bongos, it's the Fall". It's a lot like that here - if it's Sam & Jude and a revolving team of talented creatives, it's Suck UK. From the inception of the company in 1999 Sam & Jude have been the constant driving creative force, but none of that would be possible without a great team of designers and developers who turn these ideas into something great. Once a Sucker always a Sucker.
