

Kid's Colour Change Umbrella

CHILD'S COLOUR CHANGE UMBRELLA (RED)

Changes to bright colours when wet.

- Umbrella printed with colour changing ink
- White rain drop design turns multi-coloured when wet
- High-quality push-button mechanism and easy-hold handle
- Lightweight, portable, super-tough and durable

Brighten Up Bad Weather. Simple white raindrop pattern transforms into a rainbow burst of colour when the umbrella gets wet. Printed with special ink, that comes to life when in contact with water. Confuse a generation of children into thinking rainbows are leaking colour from the sky.
