

Precision Eraser

Pen & Pencil shaped erasers you can sharpen.

- Set of 2 erasers, one pen and one pencil shaped.
- The pen erases pen / the pencil erases pencil.
- Sharpen to a precision tip in a normal pencil sharpener.
- Erase small details or create highlights in your artwork.

Precisely erase small details in your artwork. To keep the eraser tip in a fine point we have created an eraser that you can sharpen with a standard pencil sharpener. The classic pencil shape is also easy to hold giving you fine control.
