

Doctor Bag

DR COOL BAG - ICE PACK

Medical style cool and hot bags!

They look like the proper medical plasma bags you see on ER! Perfect if you need a little TLC to help you recover from a big night out – or a simple pulled muscle. But don't hook them up to an IV and mainline on the bright coloured juice ... instead, apply the pack directly to the pain to soothe away your troubles. Available as Dr Cool (blue – chill in the fridge) and Dr Hot (red – click to activate and recharge for re-use in boiling water).
