HOW TO PLAY

To play, pick a puzzle from the suggestions opposite. Using the numbered pegs, set up the game board to match the guide for your chosen puzzle.

The objective is to now fill all 81 holes so that each column, row and square of the game board feature all of the numbers 1-9.

Start with a puzzle from the 'easy' section, and as you solve them, progress through the 'moderate' and 'advanced' puzzles for a greater challenge. The solution to each puzzle is on the reverse.
