

Magnet Pen

The one and only magnetic pen by Bobino

- Contains refillable ink for multi use.
- Stick to your fridge with the shopping list.
- Made of ABS plastic & neodymium magnet.

Magnet Pen may be your next fidget toy, but the main purpose of this pen is that it has a strong magnet inside, so it attaches to a refrigerator or other metal surface. It can hold a note, a receipt or whatever else you use a magnet for. And most important, it's a pen! The pen is refillable with a standard size refill that you can purchase at a stationery or office supply shop.
