- Fun fidgety wobble bell-ball.
- Stop your cat scratching your furniture.
- Keeps claws trim, maintained, strong & healthy.

Does your Cat wish she was in a 80's syth pop band? Tiddles will love getting her claws stuck into the irresistibly scratchy cardboard keyboard (and it will keep her from tearing up your furniture). A great gift for your musical cat.

Cat Scratch Synth

An idea by Suck UK Design Team

made by Suck UK

Mark E Smith once said "if it's me and your granny on bongos, it's the Fall". It's a lot like that here - if it's Sam & Jude and a revolving team of talented creatives, it's Suck UK. From the inception of the company in 1999 Sam & Jude have been the constant driving creative force, but none of that would be possible without a great team of designers and developers who turn these ideas into something great. Once a Sucker always a Sucker.
