Cat Rain Pal

Colourful Feline Umbrella.

- High quality top-grade mechanisms.
- Standard size 100cm open diameter.
- Carbon fibre struts defy wind & rain.
- Lightweight, super-tough & durable.
- Telescopic, with coordinated sleeve.

Good company in bad weather. A little mate for miserable days. Rain Pals are proper telescopic umbrellas with soft grip animal handles, matching sleeves, and just enough nonsense to make a wet Tuesday feel slightly less tragic. Lightweight, durable, and ready whenever the sky starts misbehaving, they fold down compact and pop up full-size. It's only weather. No need to take it so seriously. A great gift for grown-ups who still jump in puddles.

Cat Rain Pal

An idea by Suck UK Design Team

made by Suck UK

Mark E Smith once said "if it's me and your granny on bongos, it's the Fall". It's a lot like that here - if it's Sam & Jude and a revolving team of talented creatives, it's Suck UK. From the inception of the company in 1999 Sam & Jude have been the constant driving creative force, but none of that would be possible without a great team of designers and developers who turn these ideas into something great. Once a Sucker always a Sucker.
