

Bakeball Bat

Rolling pin for baseball fans.

We will be the first to admit that this product has quite a niche audience – and that if you haven't got a baseball loving chef in the house, as a gift – it might not seem that strong. So instead look at it the way we do, as an opportunity to transform the sports addict in your life into a culinary master, a king of pastry – just by handing them a rolling pin shaped like that which is most important to them. A baseball bat.
