Bottle Light

Rechargeable light that turns bottles into lamps.

- Cork-shaped light that fits any bottle.
- Fully charges via USB in one hour.
- Runs for 3 hours on one charged
- Available in single & twin packs

Don’t throw out your empties, recycle bottles into lamps with a super bright LED. Shaped like a cork, with a light, internal battery and USB charger. Make interesting lights with vintage drinks bottles or create a cosy, improvised table feature. Perfect outdoors (where the wind will blow out a candle stuck into an old wine bottle).
