

Lunch Bot

Robot lunch box made from colourful tin.

- Retro robot design in painted tin.
- Carry handle and metal fastenings.
- Room for sarnies, snacks and treats.

A friendly robot dedicated to one important mission: transporting lunch. Fill its metal belly with sandwiches, fruit and biscuits, your robo-buddy will not let you down. Less boring than a plastic lunch box. A great gift for hungry humans of all ages.

Lunch Bot

An idea by Suck UK Design Team
made by Suck UK

Mark E Smith once said "if it's me and your granny on bongos, it's the Fall". It's a lot like that here - if it's Sam & Jude and a revolving team of talented creatives, it's Suck UK. From the inception of the company in 1999 Sam & Jude have been the constant driving creative force, but none of that would be possible without a great team of designers and developers who turn these ideas into something great. Once a Sucker always a Sucker.
