BBQ Toolbox

Get the right tool for the job.

- Unfolds to reveal a grill, warming rack and storage tray
- Removable fuel tray and adjustable vent
- Charcoal barbecue
- A portable BBQ designed like a classic metal tool box

A BBQ that looks like a classic metal toolbox. Folds up with a convenient carrying handle for easy transportation to the park or beach. Unfolds to reveal a warming rack and storage tray for your extra hot chilli sauce. A whopping 8x15” stainless steel grill area. Removable fuel tray for your charcoal, and adjustable vent to control the flow of oxygen over the hot coals. Made from steel and coated in super high temperature red paint. This summer get outside, down tools and fire up the barbecue toolbox, not all tools of the trade stay in the kitchen. A great gift for outdoorsy types. Just be sure to pick up the right metal box from the garage, you'll look like a right numpty trying to set fire to a box of spanners.

BBQ Toolbox

An idea by Suck UK Design Team

made by Suck UK

Mark E Smith once said "if it's me and your granny on bongos, it's the Fall". It's a lot like that here - if it's Sam & Jude and a revolving team of talented creatives, it's Suck UK. From the inception of the company in 1999 Sam & Jude have been the constant driving creative force, but none of that would be possible without a great team of designers and developers who turn these ideas into something great. Once a Sucker always a Sucker.
