

Chemistry Terrarium Kit

Custom lab-flask to home a mini indoor garden.

- Conical flask to create a terrarium.
- All you need to build a eco-system.
- Coir, sand, charcoal and pebbles
 - Just add your own plants!

Everyone's favourite piece of the chemistry set, a conical lab flask, specially made with a window in the side for creating a terrarium. The kit contains all you need to build a mini eco-system soil, sand, activated charcoal and pebbles. Just add plants. A great gift for green fingered scientists.

Chemistry Terrarium Kit

An idea by Nick Lerwill
made by Suck UK

Nick Lerwill is an Irish product designer based in London. He started out his career as an intern for Suck UK back in 2011 while studying Product Design at Northumbria University. After graduating he returned to Suck, this time sticking around for another 5 years where he designed a huge range of products (the best ones!), trade show stands and stores. Since then Nick has gone on to work for MOO, an online digital print company where he continues to design new products and delve into a world new materials. For Suck, Nick has designed; Pirate Bottle Opener, Cork Cactus, Cork Tape Dispenser, Chemistry Terrarium, Volcano Dip Bowl, Neon Bird, Space Shuttle Stationery, Day & Night Clock.
