Jetpack Backpack

Take off for school. Fast.

- This bag is a rocket-powered jetpack.
- Adjustable padded straps for comfort.
- Pockets, name tag & plenty of storage.
- Rocket scientist not included.

School bags are boring. Jetpacks are not. The fastest way to get your kids out of the door in the morning. Probably. Fill it with books, snacks and all the equipment required for a successful mission, then prepare to boldly go wherever the day takes you. With rocket boosters and flames blazing from the engines.

 A great gift for aspiring astronauts and everyday adventurers.

Jetpack Backpack

An idea by Andy Mason
made by Suck UK

Andy is a product designer born and raised in the UK, earning a degree in Industrial Design from Brunel University in 2014. After interning at Suck UK for a year he went onto a full-time position, moved to London and kept creating awesome designs for another 4 wonderful years. Andy has since gone on to work at Joseph Joseph designing innovative kitchenware products sold all over the world. Apart from design he loves bikes, beer, space and pizza.
