

Book Rest Lamp

House shaped bedside reading light.

- House shaped reading lamp.
- Frosted surface for soft light.
- Ideal bed-side reading lamp.
- USB Powered, Warm LED.

Whilst you're all tucked up in bed reading your favourite fairy-tale, horror story, or glamour model biography, you can read to the glow of this clever and uncomplicated lamp. The frosted semi-transparent construction gives off a soft warming light, ideal for reading and also use as a book rest, ensuring you never lose your page. But this is no ordinary book stand, sit your favourite book on top of the lamp and look... You've made a house! It's just one of those simple design builds that makes you feel all homely, warm, and fuzzy inside. The lamp is LED and does not get hot. We have not included a power supply in the box. We are sure you already have a spare USB charger or converter - we did not want to bring another into the world. (Cable included)
