Rocket Moon Clock

Watch time fly.

- Solid metal dome wall clock with an orbiting rocket
- Battery operated (1 x AA battery not included)
- Measures 200mm(W) x 200mm(H) x 40mm(D)

Jet around the moon in 60 seconds. A solid metal dome shaped wall clock, with an orbiting rocket, circling in time and space. Watch as the seconds fly by. The battery operated wall clock is a great astronomical addition to any room. We can't think of a crater design by a budding astronaut, Andy Mason. (Requires 1 x AA battery (not included))

Rocket Moon Clock

An idea by Andy Mason
made by Suck UK

Andy is a product designer born and raised in the UK, earning a degree in Industrial Design from Brunel University in 2014. After interning at Suck UK for a year he went onto a full-time position, moved to London and kept creating awesome designs for another 4 wonderful years. Andy has since gone on to work at Joseph Joseph designing innovative kitchenware products sold all over the world. Apart from design he loves bikes, beer, space and pizza.
