

CMYK Pen

Sketch in full colour.

- CMYK 4 colour ball point pen.
- Cyan, Magenta, Yellow & Black.
- Create every colour by combining.
- Includes a mixing guide on packet.

Every colour can be created by combining the 4 colours; Cyan, Magenta, Yellow & Black. The CMYK process is used in printing to build up full colour images, and now you can use that same process to create full colour art with this ballpoint pen. Change inks with the sliding selectors, coloured ink tubes in the clear nib provide visual confirmation. Experiment, doodle, sketch, get cross-hatching and get creative, but most importantly, never leave home without it.

CMYK Pen

An idea by Suck UK Design Team
made by Suck UK

Mark E Smith once said "if it's me and your granny on bongos, it's the Fall". It's a lot like that here - if it's Sam & Jude and a revolving team of talented creatives, it's Suck UK. From the inception of the company in 1999 Sam & Jude have been the constant driving creative force, but none of that would be possible without a great team of designers and developers who turn these ideas into something great. Once a Sucker always a Sucker.
