Skull Scissors

An idea by Seb Sabene
made by Suck UK

Seb's varied experience spans from working as a chef in North London to acting and directing in films & theatre shows, copywriting and of course designing novelty gadgets. In his time at Suck Uk (where creativity and individuality are greatly encouraged) he learned to channel his imagination into product ideas - and loved coming up with the design concepts for products such as Stag Utensil Holder, Flamingo Bottle Opener and Skull Scissors. He's now part of design duo - SEBECCA Ltd. with his wife Rebecca. They're based in Yorkshire, with their pooch Bowie - who's a much better actor than Seb ever was!
