Spiral bound notepads with a wire wall hanger. Designed to keep your notes in plain sight and to help you stay on top of your projects. Use Hang-Up XL instead of a whiteboard, great for the home office or home school. Use multiple A5 Hang-Up Notebooks to keep track of multiple projects - there is a place to write your title that is always visible when you flip the pages. Great in the design studio to keep track of ideas, and equally at home in your kitchen for reminders, a weekly menu planner, day to day lists, or simply hanging right where you left it when inspiration strikes! If you are making shopping lists or to-do lists the pages easily tear off. Got a big family? Hang up one for him, one for her and one each for the kids... Endlessly useful notebooks.

Hang-Up Notebooks

An idea by Suck UK Design Team
made by Suck UK

Mark E Smith once said "if it's me and your granny on bongos, it's the Fall". It's a lot like that here - if it's Sam & Jude and a revolving team of talented creatives, it's Suck UK. From the inception of the company in 1999 Sam & Jude have been the constant driving creative force, but none of that would be possible without a great team of designers and developers who turn these ideas into something great. Once a Sucker always a Sucker.
