Double sided, auto locking, measuring tape with fascinating dimension based world records and facts. Find out how big your things are compared to the biggest and amazingest feats of length. Did you know fleas can jump 18cm... the equivalent of a human jumping 50m, or did you always want to see what the longest tong in the animal kingdom looks like? A great gift for inquisitive geeks (or anyone who needs a tape measure). 60 records from the scientific to

the ridiculous in cm & inches.
I think my sister holds the record talking on the phone. I think I will go and beat the time around the world alone. I could cycle, ride a horse or do it on my hands. Maybe there is a record for stretching rubber bands. It may be the smallest, it may be the tallest. It may be the fastest that there has ever been. The highest, the deepest, the road that is the steepest The longest and widest the world has ever seen.

World Records Tape Measure

An idea by Suck UK Design Team
made by Suck UK

Mark E Smith once said "if it's me and your granny on bongos, it's the Fall". It's a lot like that here - if it's Sam & Jude and a revolving team of talented creatives, it's Suck UK. From the inception of the company in 1999 Sam & Jude have been the constant driving creative force, but none of that would be possible without a great team of designers and developers who turn these ideas into something great. Once a Sucker always a Sucker.
