Build Your Own Guitar

Cardboard playable Flying-V guitar

- Pop-out cardboard components.
- Assembles without glue or tape.
- Elastic bands form the strings.
- Playable... sort of!

Kids love making stuff. Cool kids build their own guitars. Want to get a head start in the home-made musical instrument scene? Forget about old shoe boxes and bits of string.... You need the amazing SuckUK instant cardboard guitar kit! Twerrang!

Build Your Own Guitar

An idea by Alex Campbell

made by Suck UK

After graduating with a degree in Graphic Design in 2007 and getting some experience under his belt at some Bristol-based agencies, Alex moved to London and began working in the product and giftware industry in 2010. After 12 years sharpening his skills and knowledge in all thing's giftware, Alex joined the SuckUK team in 2022 where he continues to design and develop products and lifestyle ranges. Now living back in Bristol, he's often found on the M4 heading back and forth to SuckUK HQ.
